

Specifications

- Product** Foam Insulation Tape
- Application** Hot or cold piping
- Indoor/Outdoor Use** Indoor or outdoor
- Purpose** Foam Insulation Tape is a flexible, multi-use pressure sensitive tape used in a number of commercial and industrial applications, primarily as a sealant and insulator.
- Composition** This 1/8" x 2" x 30' insulation roll is made of 1/8" thick, lightweight black colored closed cell polyethelene foam with a high quality double coated adhesive on one side.
- Advantages**

Foam Insulation Tape is self adhesive and easy to cut or bend. It provides a quick and easy solution to insulating pipes. The high moldability of the product allows Foam Insulation Tape to be easily manipulated around valves and fittings.

Foam Insulation Tape features high temperature resistance, low water absorption, low moisture vapor transmission, good bouyancy, excellent thermal insulation and chemical resistance.
- Thermal Conductivity** .25 (K-Factor, ASTM C 177-63)
- Water Vapor Transmission Rate** .4 perm. (ASTM E 96)
- Water Absorption Per Cut Surface** .04 lbs.
- Ozone Resistance** Excellent
- High Temperature Use Limit** 180°F
- Directions** Simply peel the backing away from the tape, and wrap the tape around the piping.

Package Metrics

- Producer of Goods** DiversiTech
- Domestic/Foreign Commodity** Foreign
