

REPLENISHMENT PROGRAM CHECKLIST

Coburn's Replenishment Program is designed to simplify your inventory management and ensure you have the supplies you need.

Here's how it works:

In just a few clicks, you'll be able to instantly add your must-have products into your personal Replenishment Queue! Then, like clockwork, on the exact day and time you and your local Coburn's decide, those items will automatically be generated into an order!

This means no more last-minute rushes or forgetting essential items!

CUSTOMER ACTIONS

COBURN'S REP ACTIONS

- Register for a web account on www.coburns.com
- Download the Coburn's Connect App
- In the app, click the "Replenishment" tile. If your account is not enabled, you will need to fill out the form.
- Repeat these steps for all users that need access to the Replenishment Program.
- Barcodes are available for printing under the Order Template Section of coburns.com

- Review Replenishment Program with Customer
- Determine day(s)/time to create orders from their replenishment queue
- Help customer create order templates

Suggestion:

Create a quote with a list of products they stock on trucks and/or warehouses. Submit the quote number through the "Contact Us" form for Web Support team to upload for you.
